BULL TROUT DISTRIBUTION FIELD SURVEY

The focus for our field day will be the nearby streams in the upper Powder River subbasin, where data on bull trout occupancy and distribution has not been collected since the 1990s! Surveys will involve backpack electrofishing and specific sites and methods are currently in the planning works. The survey planning team will follow with registered meeting attendees to assess backpack electrofishing gear survey needs. Stay tuned!

LODGING DETAILS

2 group campsites (45 person capacity each) are reserved for the meeting, 1 at Anthony Lakes Campground and 1 at Mud Lake Campground, both within short walking distance to Anthony Lakes Ski Area lodge (presentation and meal venue). There are no shower facilities although the adjacent lakes are available for a dip and potable water and pit toilets are available. The group campground fee is included in the registration fee (both nights of conference + night of Aug 12 for early arrival). If you choose to use an individual campsite in the main campground, the added expense is not included in the registration fee above.

1 cabin is located at Anthony Lakes Campground with limited capacity that can be shared on a first-come basis. Use of the cabin is not included in the registration fee. If you choose to share the cabin, the rental fee will be divided equally among the cabin users. Please contact Bianca Streif for details on cost and sharing the cabin facility bianca_streif@fws.gov, 503-231-6978.

Additional lodging options are available, but are at least a 30 minute drive from Anthony Lakes, and not included in the registration fee above. Details on several additional non-camping options are listed here: <http://www.anthonylakes.com/travel-lodging/lodging-deals/>
